Fat-Sofa Outdoor

ARMCHAIRS

Patricia Urquiola

Description

The rounded, soft and sinuous shapes of the Fat-Sofa seating system are the base for the new outdoor version, characterized by a brand new interlacing design. Its fully padded seat is accompanied by a metal frame backrest that supports the original weave, creating a special play of fullness and emptiness. The large weave pattern, made of tortora coloured twisted polyethylene fibres, makes the design unique, respecting the designer's idea of lightness, transparency and puts the furnishings in an open "dialogue" with the surrounding environment. Fat-Sofa Outdoor consists of six types, ranging from two height variants of the armchair, from the linear sofa to a large relax island, to a range of different sizes of ottomans.

Technical information

Frame:
aluminium

Frame finish:
grey polyester powder painting

Interlacing:
tortora polyethylene

Internal frame:
tubular steel and steel profiles, polystyrene foam

Internal frame upholstery:
Bayfit® (Bayer®) flexible cold shaped polyurethane foam, shaped polyurethane of different density, water repellent polyester fibre cover

Back cushion:
polyester fibre, cover in water repellent polyester fibre

Bottom base:
100% polyamide fabric coated PVC, black PVC trimming

Feet:
black thermoplastic material

Cover cloth:
polyester on synthetic support

Cover:
fabric in limited categories
